

REMARKS

This is a response to the Office Action of August 14, 2009.

In paragraph 1 of the Action, it was held that "This application appears to be a division of Application No. 12/385,480, filed 4/09/2009." However, this is a parent application of Serial No. 12/385,480.

In paragraph 1, it was also stated that "Applicant needs to update cross reference." In view of this request, a cross reference to the parent application (patent) has been added in the specification. If some other amendment is required, please advise.

In paragraph 2 of the Action, it was stated that the assignee has not established its ownership interest in the patent for which reissue is being requested. In this respect, a Patent Assignment Abstract of the Patent, from which the application derives, is filed.

In paragraph 3 of the Action, it was requested to file a supplemental reissue declaration. In response to the request, the supplemental reissue declaration has been filed.

In paragraph 4 of the Action, claims 1 and 2 were rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. In this respect, the reissue application was filed within two years from the issue date of the patent.

In paragraph 5 of the Action, claims 1 and 2 were rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application of the patent.

In view of the rejection, claims 1 and 2 have been amended to obviate the rejection.

It is believed that the rejections have been obviated. If any further amendment or paper is required, please advise the undersigned agent.

Serial No. 10/795,810

Respectfully Submitted,
